

JOHN REXTER FLORES

Address: Cebu, Philippines
Phone: +63 9086341714
Email: johnrexter.flores@gmail.com

SUMMARY

Software Engineer with strong expertise in PHP (Laravel) and modern JavaScript frameworks (React, Vue). Experienced in building scalable web applications, designing reusable front-end components, and integrating APIs and microservices. Skilled in debugging, optimizing legacy systems, and delivering reliable, user-focused solutions in both full-stack and front-end roles.

WORK EXPERIENCE

Advanced Processing Systems

Aug 2023 - Dec 2025

- Refactored complex SQL queries and database interactions, improving overall application performance by 15%.
- Integrated multiple APIs and microservices, enhancing system reliability and reducing errors
- Implemented real-time data dashboards with Vue/React, increasing user engagement and decision-making speed.

Freelance

Oct 2020 - Aug 2023

- Refactored complex features for better maintainability and readability in both front-end and back-end code
- Streamlined deployment processes and implemented CI/CD pipelines for faster and more reliable releases.
- Developed and maintained full-stack web applications using Laravel and Vue/React.

Cloudninja

Aug 2018 - Oct 2020

- Integrated OAuth2 and JWT authentication for secure API access in web and mobile clients.
- Developed Progressive Web Apps (PWAs) to provide mobile-like experiences with offline support
- Implemented secure authentication and role-based access controls to protect sensitive user data.
- Perform unit and feature testing using PHPUnit, Pest, and Laravel testing utilities

Fashion One

Jan 2016 - Aug 2018

- Implement asynchronous processing and job queues for long-running tasks.
- Integrate applications with cloud services (AWS, GCP, or Azure).
- Perform unit tests and simple integration tests for assigned backend features.
- Maintain API documentation and update notes when features change.

EDUCATION

Computer Engineering Major in Software Development

May 2013 - Apr 2017

University of San Carlos

TECHNICAL SKILLS

- | | | | |
|-----------|------------|----------------|------------|
| • Laravel | • GIT | • Jenkins | • MySQL |
| • PHP | • AWS | • Unit Testing | • Docker |
| • React | • Azure | • Jest | • Redis |
| • Next | • REST API | • Protractor | • GraphQL |
| • Vue | • SOAP API | • Python | • Firebase |
